

PERIMETER LIGHTING

PART NO. 112-21-580-50-K

AXCS Equipments perimeter lighting solution is designed to enhance jobsite safety by visually establishing a “do not enter” safety zone around the scissor lift, protecting workers below from dropped objects.

KEY FEATURES

- ▶ **Safety Zone:** Visually creates a “do not enter” area around the scissor lift to protect workers from dropped objects
- ▶ **Visual Indicator:** Provides a clear visual warning of an active scissor lift
- ▶ **High Visibility:** High lumen lights ensure visibility even in bright environments
- ▶ **Minimal Battery Draw:** Designed with LEDS to consume minimal battery power
- ▶ **Adjustable Light Distance:** Light distance can be adjusted to the jobsite with a range of 3 to 8 feet
- ▶ **Durability:** Heavy duty aluminum housing with a IP67 rating for immersion up to 1 meter and IP69K rating for power washing
- ▶ **Made in the USA:** Proudly made in the United States
- ▶ **Complete Kit:** Includes 4 lights, brackets and hardware, wiring harness, and installation instructions

MODELS

- ▶ **PS-1030:** PS10-50000+
- ▶ **PS-1430:** PS14-50000+
- ▶ **PS-1930:** PS19-50000+
